

HpE PROCESS

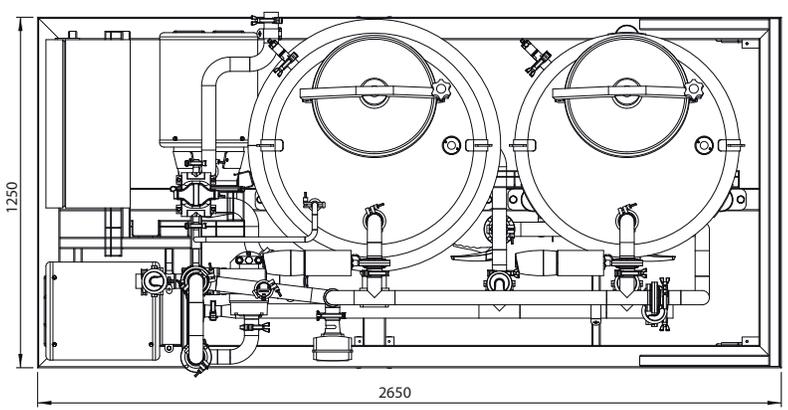

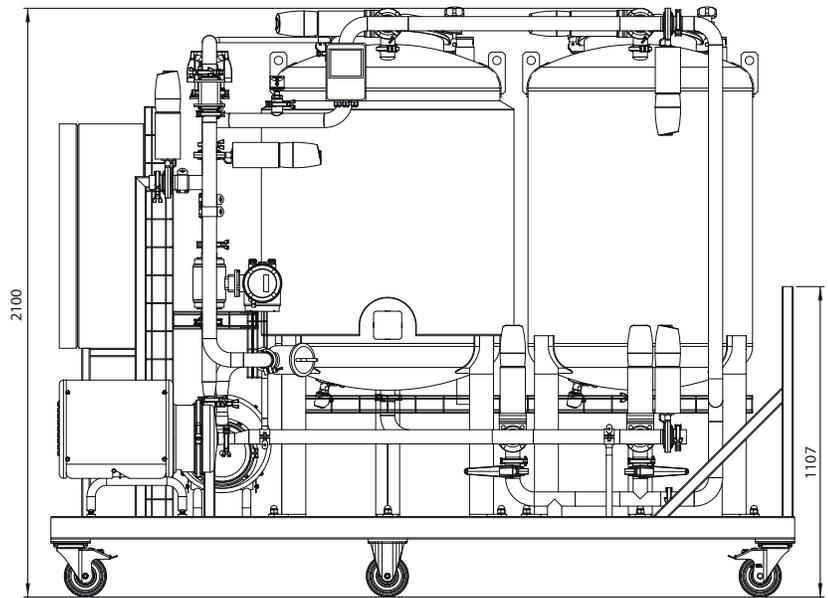

Single vessel set:-

Operating limits:
Tanks requiring cleaning up to 3.000 L
Cleaning flow rate 10.000 L/h
Cleaning pressure 3 bar

Twin vessel set

18.5 kw heater
Operating limits:
Tanks requiring cleaning up to 3.000 L
Cleaning flow rate 10.000 L/h
Cleaning pressure 3 bar

Process Equipment

HTST pasteurization unit

Integrated Solutions

Electric pasteurization unit

Maturing / Fermenting unit

Portable CIP unit

Foodstuff pilot plant

Homogeniser
HST

EMT

Solid-liquid emulsifier

EMTB

Solid-liquid mixer

Cake mixture pumping unit

Creams and sauces production reactor

FL50CI

Food/sanitary centrifugal pump

FLUID

Hygienic centrifugal pump

LMRE

Lateral agitator

FL--PRL

Lobe Pump

FL80CAI

Sanitary grade self-priming centrifugal pump

TANDEM

Vertical agitator

FLM--RF

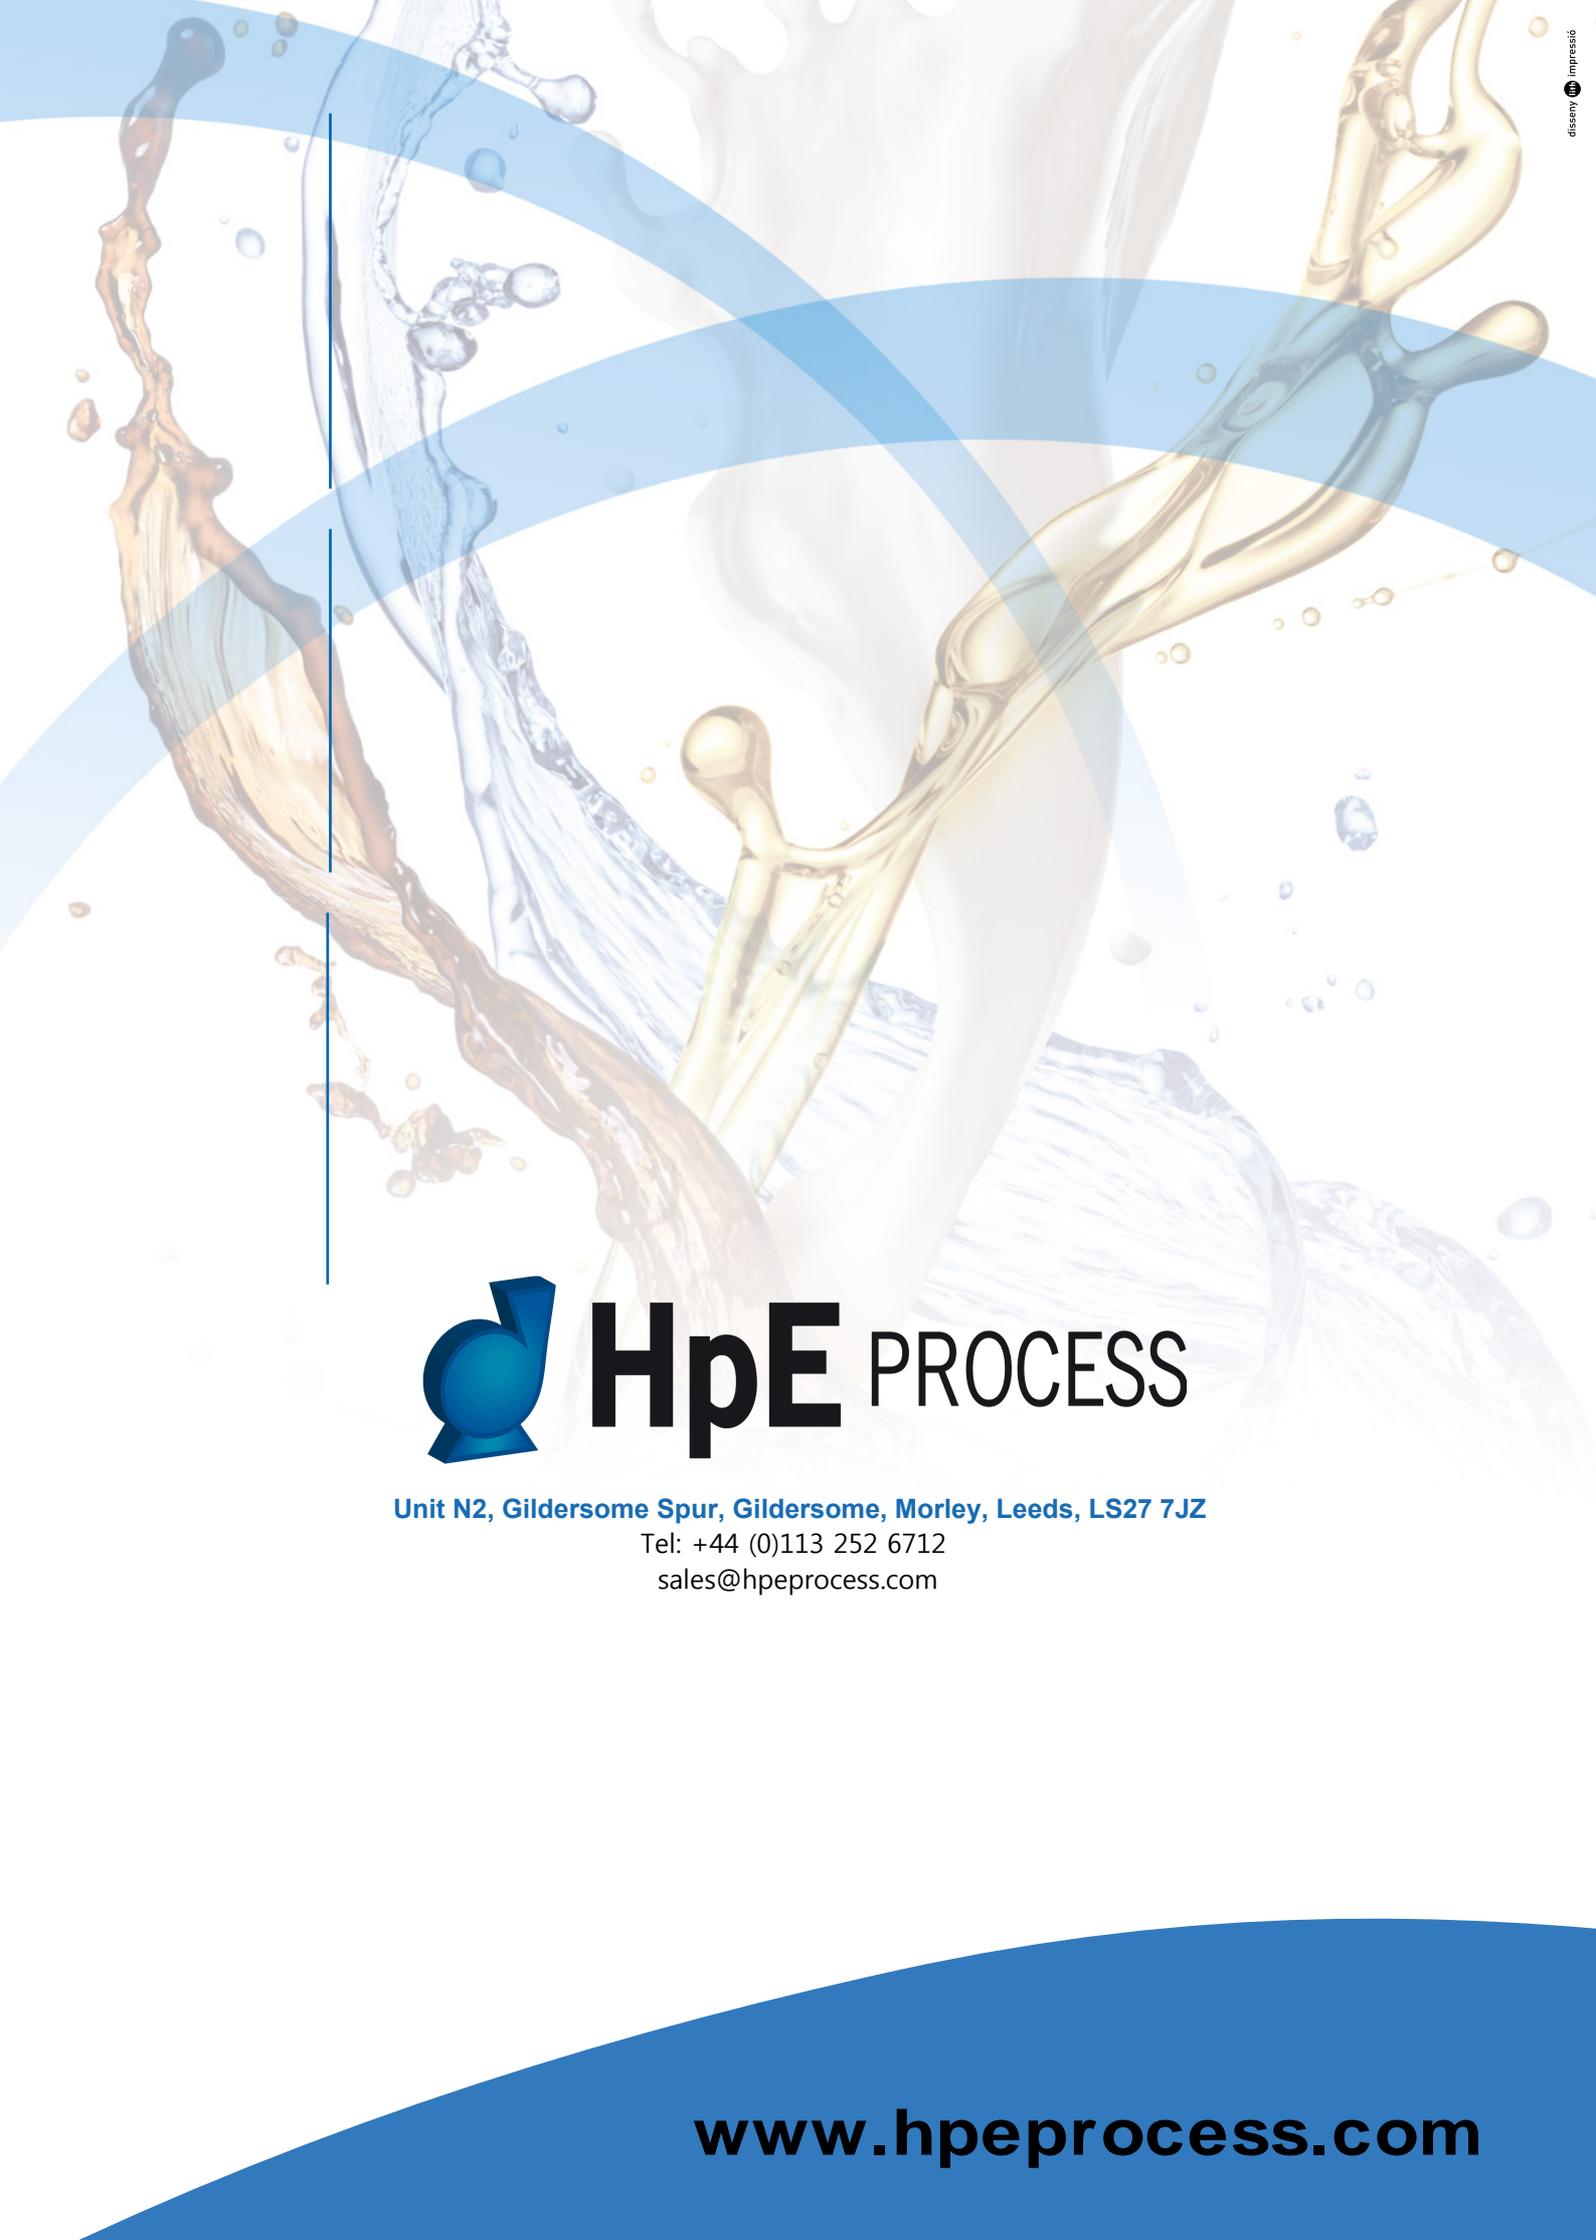

Flexible impeller pump

FL--AL

Liquid ring pump
